DIRECTIONS

To Make 10-12 four inch pancakes.

Blend together 1 egg, 1 cup of milk and 1 tablespoon of melted or liquid shortening.

Add 1 cup of Pepperidge Farm™ pancake mix and stir only enough for lumps to disappear, then let batter rest while griddle is heating.

Pour & Bake on hot griddle, lightly greased if needed. Griddle is hot enough when drops of water dance on it before evaporating. (375-400°F.)

Turn when bubbles begin to appear on top. (Two or three minutes.) Lift edge with spatula and check color, then turn only once.

Additional mix may be added to the batter for thicker pancakes or more milk for thinner pancakes.
